

# Environmental Policy Statement

## Our Commitment

Nexus is one of the United Kingdom's leading security organisations whose aim is to revolutionise the security industry through a fair pricing protocol. We recognise our responsibility to prevent pollution in all parts of our operations, safeguard the environment and take positive steps to minimise the environmental impacts of our operations.

We aim to comply with applicable environmental legislation and industry codes of practice, and seek to implement good practice.

## Our Aims

- To operate an environmental management system (EMS) throughout the organisation.
- To use energy and water efficiently and optimise our use of natural resources.
- To minimise the volume of waste deposited to landfill by re-using and recycling materials wherever possible.
- To encourage modes of transport, which minimise environmental impact, ensure that our staff are aware of efficient driving and examine the operation of our vehicles.
- To ensure that our staff and partners are aware of relevant environmental issues, and of their own roles and responsibilities in delivering the overall programme and providing training for those with particular responsibilities.
- To continue to consider environmental factors and risks in our commercial decisions, alert our customers to the importance of these issues, and direct them to specialist sources of advice.
- To encourage the development of products and services that will help our customers to adopt sound environmental principles and practices.
- To ensure that our key suppliers and partners are aware of our policy and that wherever possible, they operate to similar standards, as a minimum.
- To continue to provide support for sustainability initiatives that contribute towards the preservation or enhancement of the quality of life in the communities in which we operate.

## Our Responsibilities

We will ensure that resources are available to enable us to achieve our objectives and targets.

The Managing Director is responsible to stakeholders for our environmental performance and implementation of this policy.

All employees have a responsibility in their area to ensure that the aims and objectives of the policy are met.

## Communication

This policy is communicated to all our staff. The policy is available to download or on request.

Signed
